

And have a look at this for inspiration:

Mr Jones wanted to be the first member of staff in the GFM to show all the different skills and attributes he has that link to Gosport futures. For his Christmas present his team produced his own record of achievement which is now on display in his office. **You could make your own!**

Mr Willis really wanted something special for his new office, something that helped everyone who visited his office to remember each of the skills and attributes for the Gosport Futures. Mr Willis LOVES what the Gosport Futures stands for and how it represents such a fantastic community. Mrs AP had an idea for Mr Willis's birthday - look what her and her daughter made **we wonder what you will create!**

Here's them making Mr Willis's present (see link above).

Mr Adderley is really keen to show some of his skills linked to Gosport Futures, we think he is going to focus on sport! He thinks the Gosport Futures projects are a GREAT idea!
